

Febo

ARMCHAIRS

2008

Antonio Citterio

Description

The Febo armchairs are a traditional type of seat. Sharing the same soft, elegant lines, they come in different versions, with a more or less enveloping shape, with a high or low backrest, and with or without armrests. The fabric or leather upholstery is embellished by visible blanket stitching and, in a sophisticated single-material version, also incorporates the feet. The base frame also comes in solid wood in different finishes. The Febo series includes sofas, chaise longues, chairs, beds and ottomans.

Technical information

Internal frame
tubular steel and steel profiles
Internal frame upholstery
