

## Caratos

ARMCHAIRS

2018

Antonio Citterio

## Description

---

The Caratos armchair, available with a high or low tub backrest, is characterised by fluid shapes and by a lightweight frame. Instead characterised by an enveloping upholstered back that also forms the armrest, the Caratos small armchair is free from postural constraints, favouring conversation and interaction with those nearby. Covered in either fabric or leather, they are part of a collection bursting with proposals for the most diverse settings, united by a base frame in painted die-cast aluminium.

## Technical information

---

Internal frame  
tubular steel and steel profiles  
Internal frame upholstery  
Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover  
Seat cushion upholstery (SCA69)  
shaped polyurethane, sterilized down, polyester fibre
