

## Dike headboard

BEDS

2019

Antonio Citterio

## Description

---

The headboard Dike with unusually-size, is a distinctive element that creates a new furniture category. Antonio Citterio imagined two panels, ending with two mobile elements, anchored by an elegant full-height hinge. This headboard becomes a theatrical backdrop or a structural element which is made even more sophisticated by the upholstery. Dike uses an ad-hoc designed fabric, with an enhanced three-dimensional and visible texture similar to a woven horizontal band tapestry making light and colour visual effects which fade gently into each other. This is a new and luxurious and refined range, hyperbolic but extremely calibrated, soft, and rational, which underlines Maxalto's renewed desire for excellence and originality.

## Technical information

---

Internal frame  
multi-layered wood panel  
Internal frame upholstery  
Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover  
Wall fixing brackets  
aluminium profiles  
Hinge  
steel  
Cover  
fabric
