

## Alcova

BEDS

2003

Antonio Citterio

## Description

---

Alcova is the classical canopy bed in a modern interpretation, suitable to be positioned mid-room; bed sides and headboard in leather or fabric. The bed rests on a platform which is large enough to position a service element with an open compartment at the foot of the bed.

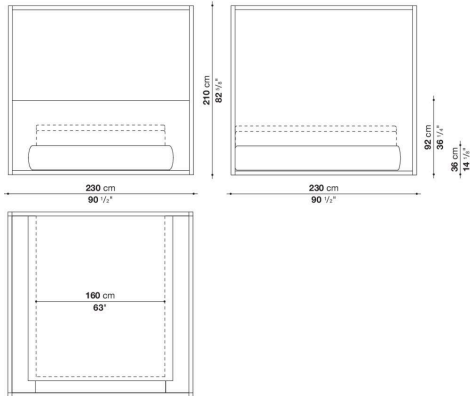

## Technical information

---

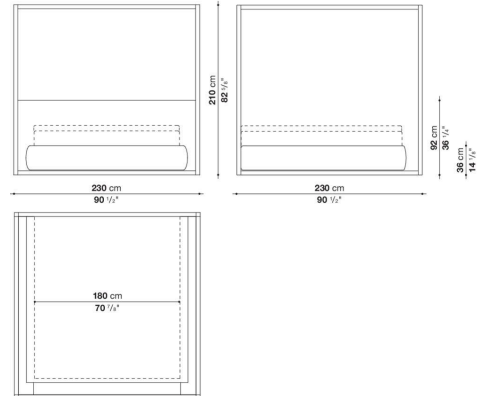

Frame  
solid wood  
Bed side internal frame  
tubular steel and steel profiles  
Headboard internal frame  
wood particles panel  
Internal frame upholstery  
shaped polyurethane, polyester fibre cover
