

Recipio '14

SMALL TABLES

2014

Antonio Citterio

Description

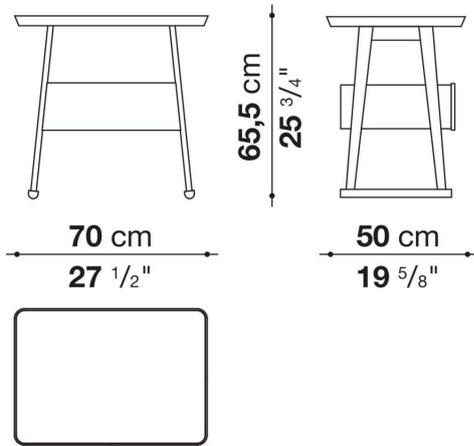

Recipio '14 is a series of round and rectangular small tables in different sizes. Depending on the type, they are available in various finishes with sophisticated hues. Particularly original are the versions with a rounded, tray-shaped top. The Recipio '14 series includes, in addition to the console, writing desk and dining table, also the eclectic night/small table that is now even more functional thanks to a half-height drawer that is particularly handy next to a bed, for storing magazines, books and other small items that accompany sleeping and reading.
