POLTRONE

2008

Antonio Citterio

## Descrizione

Le poltrone Febo portano con sé la memoria di una tipologia di seduta tradizionale. Accomunate dalle linee morbide ed eleganti, sono proposte in diverse tipologie dalla forma più o meno avvolgente, con schienale alto o basso, con o senza braccioli. I rivestimenti in tessuto o pelle sono impreziositi da cuciture a vista a punto cavallo e possono inglobare i piedini per una sofistica versione monomaterica. La struttura di base può essere anche in legno massello in diverse finiture. La serie Febo propone anche divani, chaise longue, sedie, letto e pouf.
