

Florius

DIVANI

2024

Antonio Citterio

Descrizione

Pensato per rinverdire la tradizione dei pezzi firmati dai grandi tappezzieri, Florius è un sistema di divani caratterizzato, anche a prima vista, da una struttura dal disegno essenziale e dal grande numero di cuscini. I vari elementi che compongono il sistema danno vita alle più svariate configurazioni: lineari, ad angolo, con uno o due braccioli, con pouf, con chaise longue. Florius è proposto in due versioni: una con struttura e cuscini interamente rivestiti in tessuto o pelle, l'altra con chassis in legno con finitura gomma lacca, da abbinare a rivestimenti in tessuto o pelle per le cuscinate.

Informazioni tecniche

Telaio interno

tubolari e profilati d'acciaio con cinghie elastiche, poliuretano sagomato, fodera in fibra di poliestere

Scocca

pannelli in particelle di legno, poliuretano sagomato, fodera in fibra di poliestere
